

CL Request – Boards and Commissions appointments, 11/19/03

For background purposes:

The Governor has made advise and consent appointments and appointments that do not require advise and consent as the normal course of doing business up to November 1. After November 1, he will not submit any advise and consent appointments and will yield to Governor Elect Barbour to make those appointments in January.

Quote – From Lee Ann Mayo, spokesperson:

“During their recent meeting, Governor Musgrove suggested that he not make any advise and consent appointments during the transition and that Governor Elect Barbour would be able to make those appointments in January. Governor Musgrove will make a few appointments to positions that do not require advise and consent that were already underway.”
